TOMONORI INOUE

CHARACTER PROFILES

AOI FUKASAKU

(HIGH SCHOOL FIRST-YEAR)

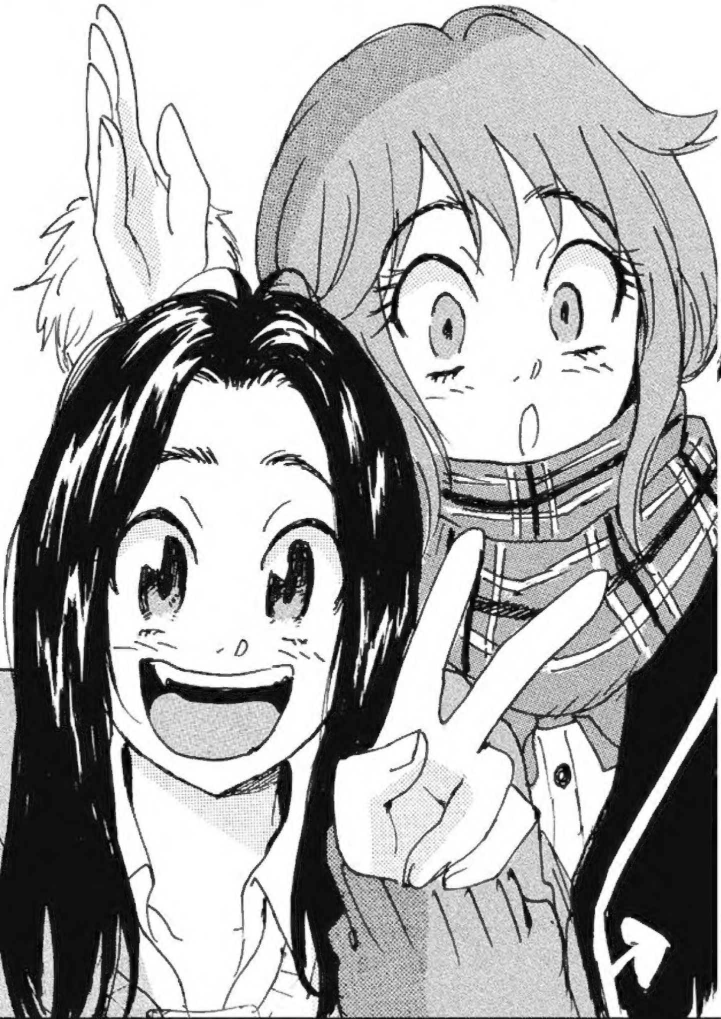
The Medical Unit's cheerful icebreaker. Aoi has a bottomless stomach and a bright personality, but was thought to be a useless, poor student otherwise—except a mysterious power sleeps inside her, as the "complete" Coppelion...

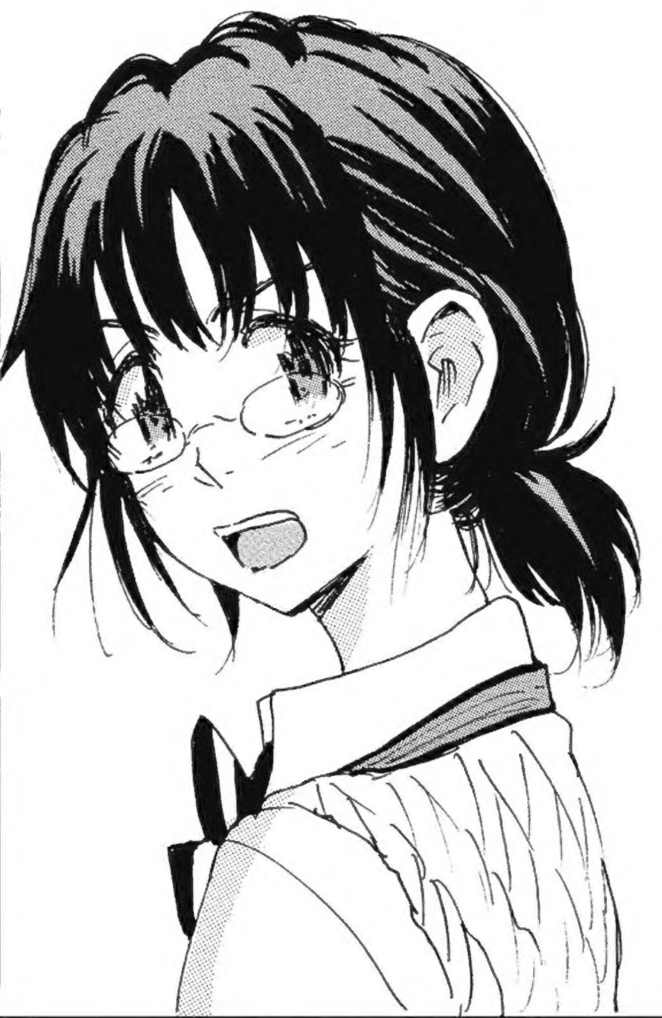
IBARA NARUSE

(HIGH SCHOOL THIRD-YEAR)

Leader of the Coppelion Medical Unit. She possesses staggering athletic ability, and her combat skills are excellent. Relying on her strong conviction to save everyone in Tokyo to give her strength, she leads the search for survivors. Her speech can be a bit rough.

COPP
KEEP OUT





OZU SISTERS

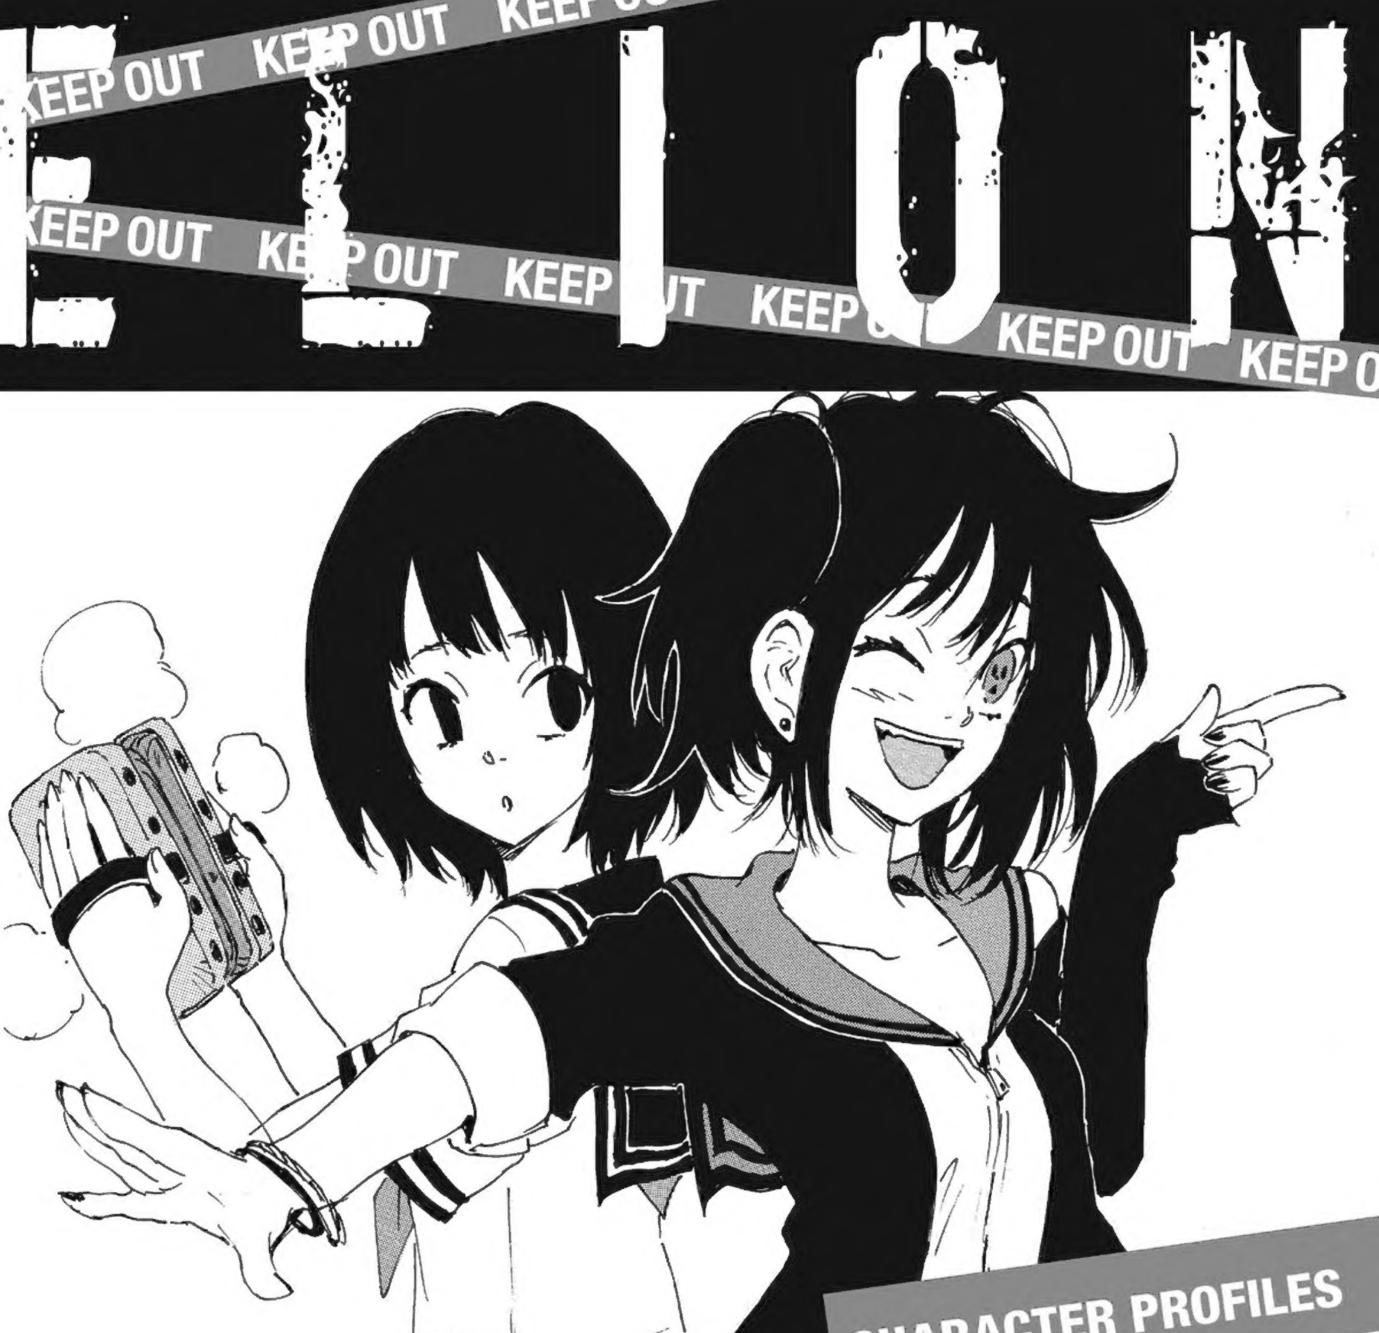
(HIGH SCHOOL THIRD-YEARS)

Twin sisters in the Cleanup Crew. Kanon (right), the older sister, can generate lightning, and Shion (left), the younger sister, has super strength. They're both incredibly violent, but reformed after their battle with Ibara.

TAEKO NOMURA

(HIGH SCHOOL FIRST-YEAR)

The Medical Unit's comforting member. She's quite knowledgeable and has superhuman senses (she wears glasses to reduce her eyesight to 10% of its true strength, because she sees too far). She loves animals.



CHARACTER PROFILES

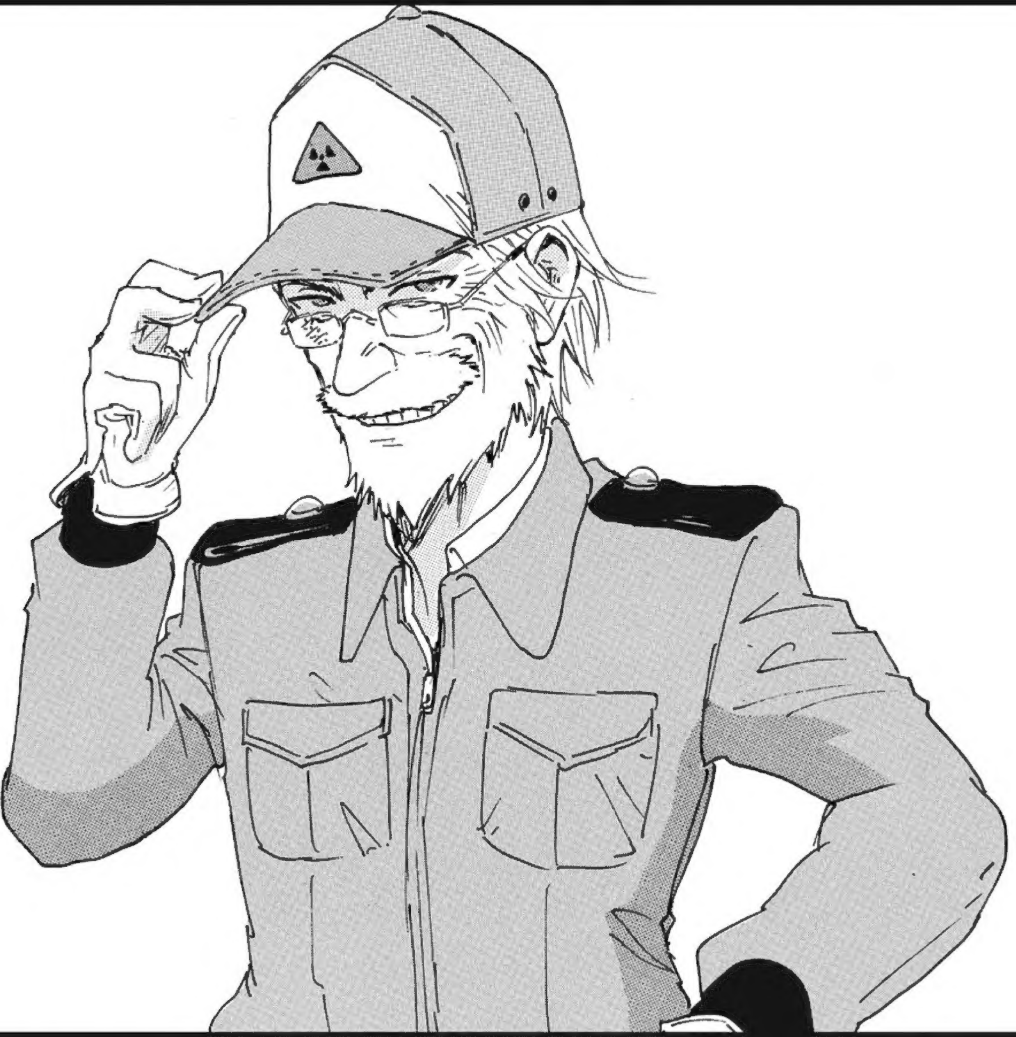
MANA TSUBURAYA
(HIGH SCHOOL SECOND-YEAR)

A second-year Coppelion. She's a defect with a "bug"—her body releases neutrons. She seems to be able to harness incredible energy to create shockwaves, but the rest is a mystery...

MEISA ICHIKAWA
(HIGH SCHOOL SECOND-YEAR)

A second-year Coppelion. She can disassemble and reassemble her body at the atomoic level, a power which she calls "particle break." She's working under Dr. Coppelius against Ibara and the others so that he'll fix the second-years' defect. She likes online games.

COPP
KEEP OUT



DR. COPPELIUS

The mad scientist who created the Coppelion. His true name and nationality are unknown. He's using the second-years to carry out his "grand plan." His target: Aoi Fukasaku, the complete Coppelion. He stole the manufacturing data for aether from the Third Division Research Center and slipped into Tokyo.

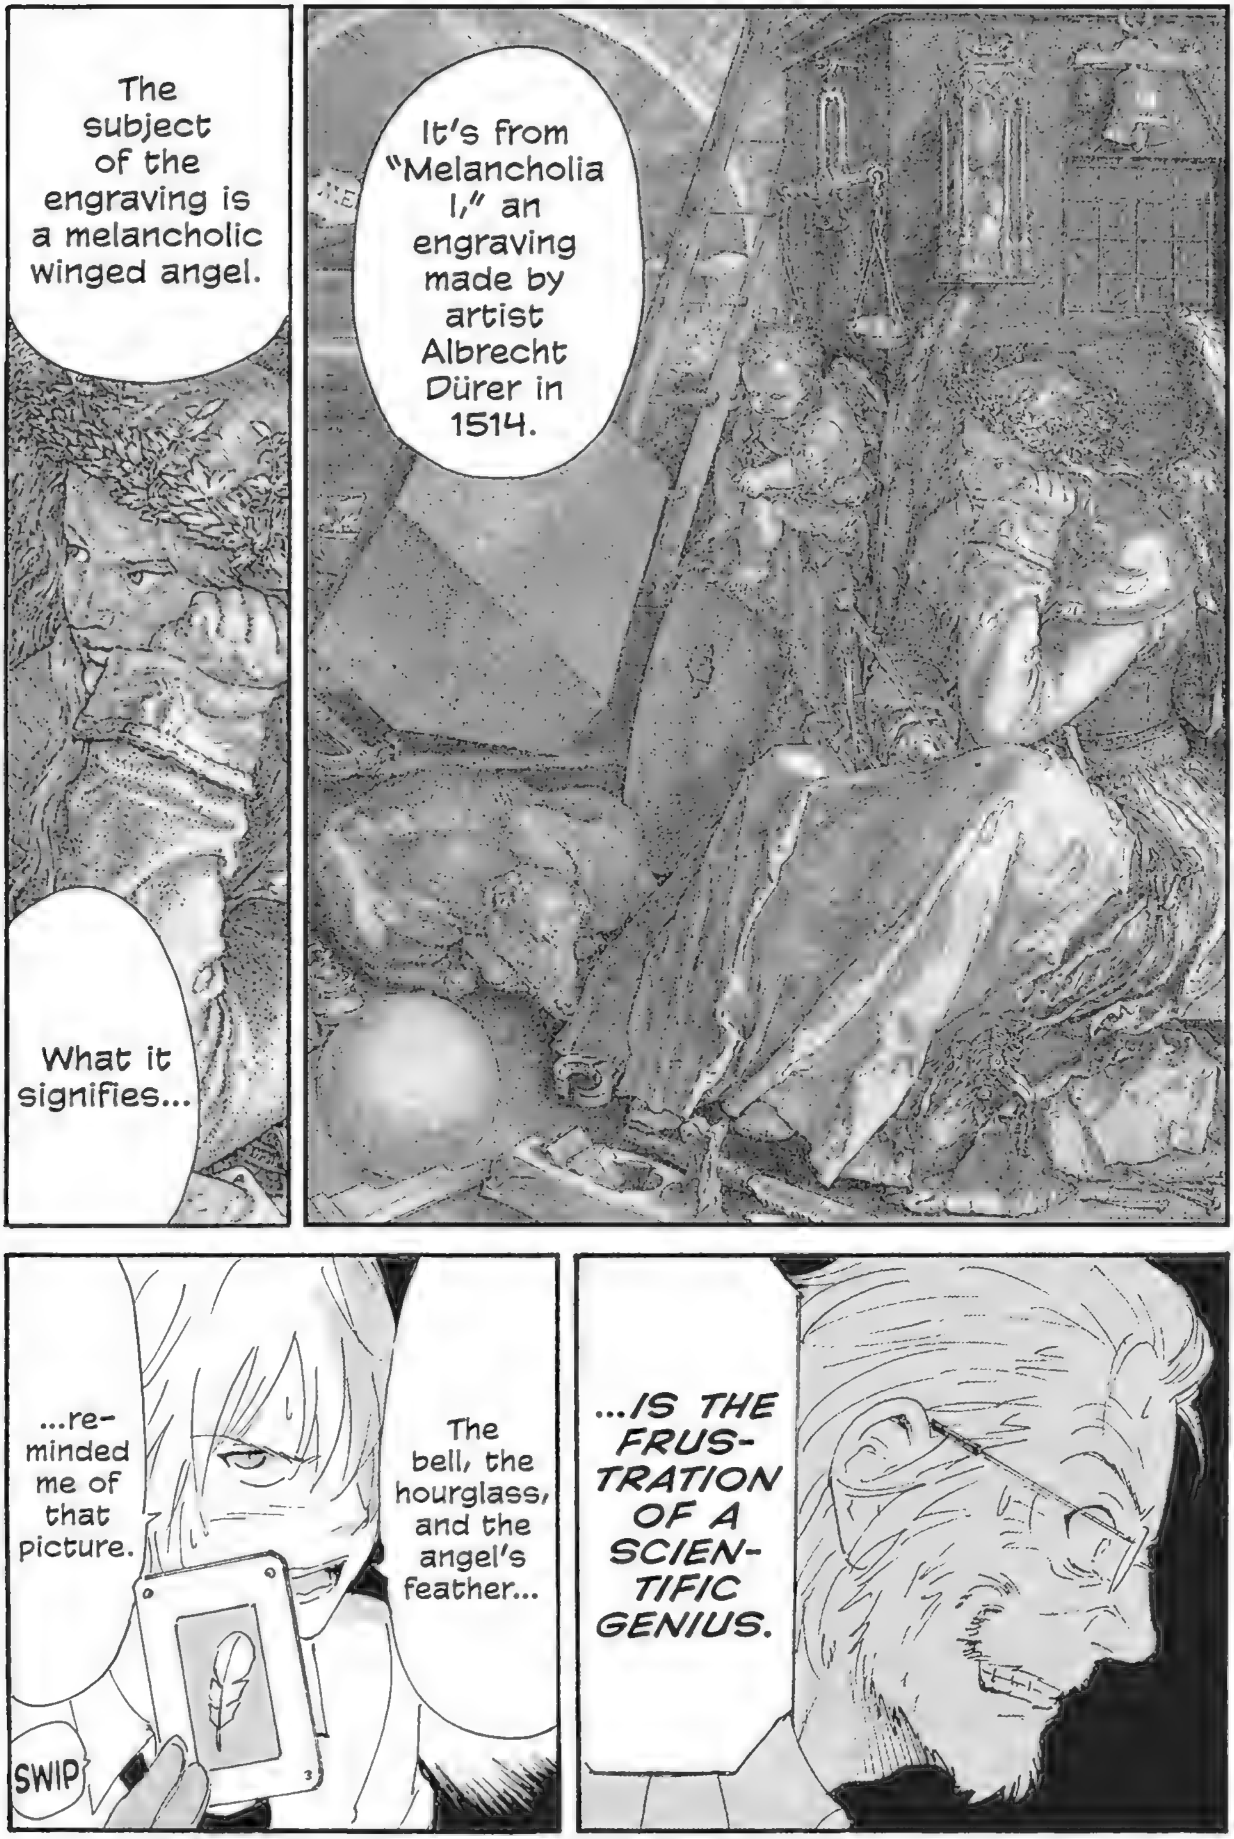
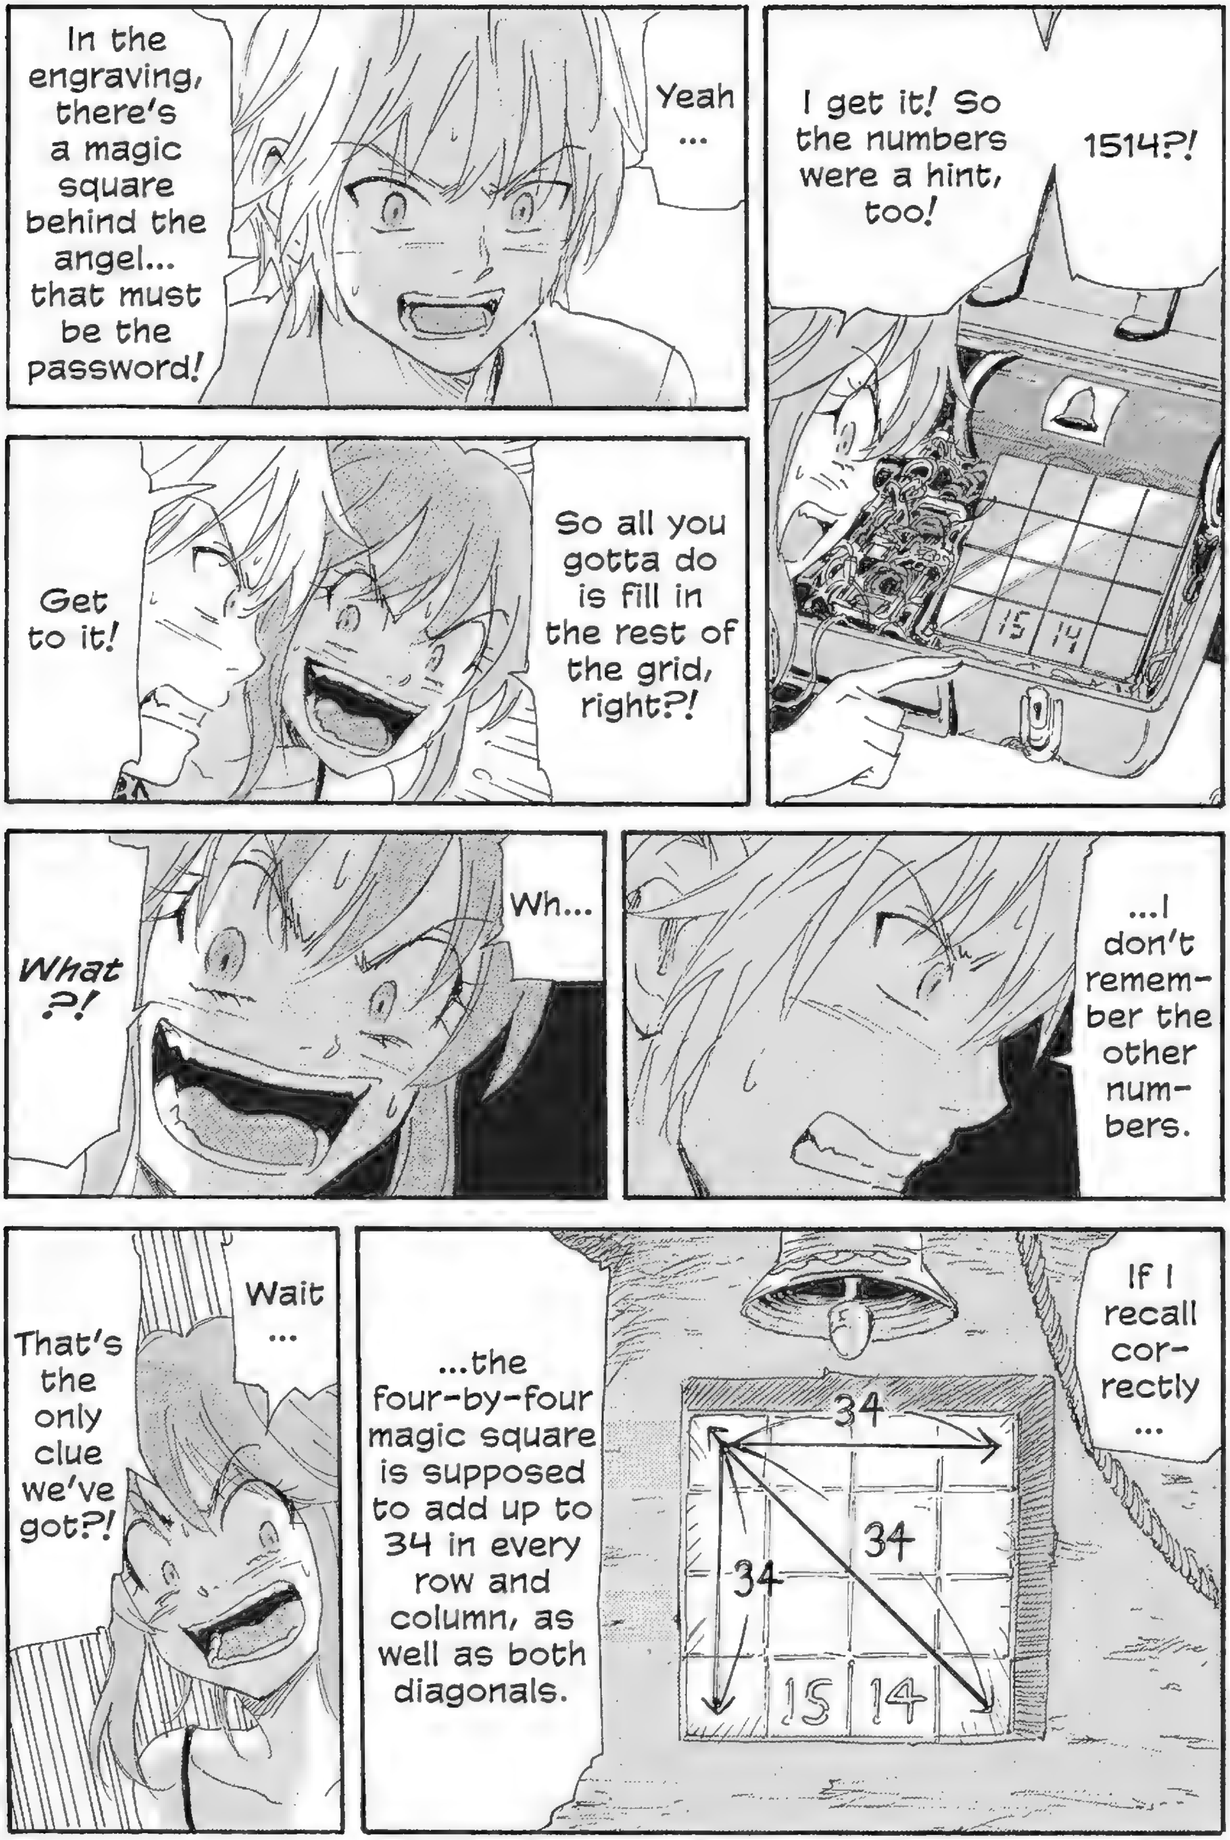
There's no mistake—
This is "Melancholia's Magic Square"!
15 14



It's from "Melancholia I," an engraving made by artist Albrecht Dürer in 1514.
The subject of the engraving is a melancholic winged angel.
What it signifies...
...IS THE FRUSTRATION OF A SCIENTIFIC GENIUS.
The bell, the hourglass, and the angel's feather...
...reminded me of that picture.
SWIP



1514?!
I get it! So the numbers were a hint, too!

So all you gotta do is fill in the rest of the grid, right?!
Get to it!

If I recall correctly…

Split personalities?!
I DESCEND FROM THE HEAVENS. GUARDIAN ANGEL
That's the only explanation!
Aoi Fukasaku's current behavior doesn't match her profile data by even 1%!
It follows...
...that Aoi Fukasaku has another, separate personality—
Oh, gimme a break!

Alternate personalities aren't "guardian angels"! This isn't some retarded anime!

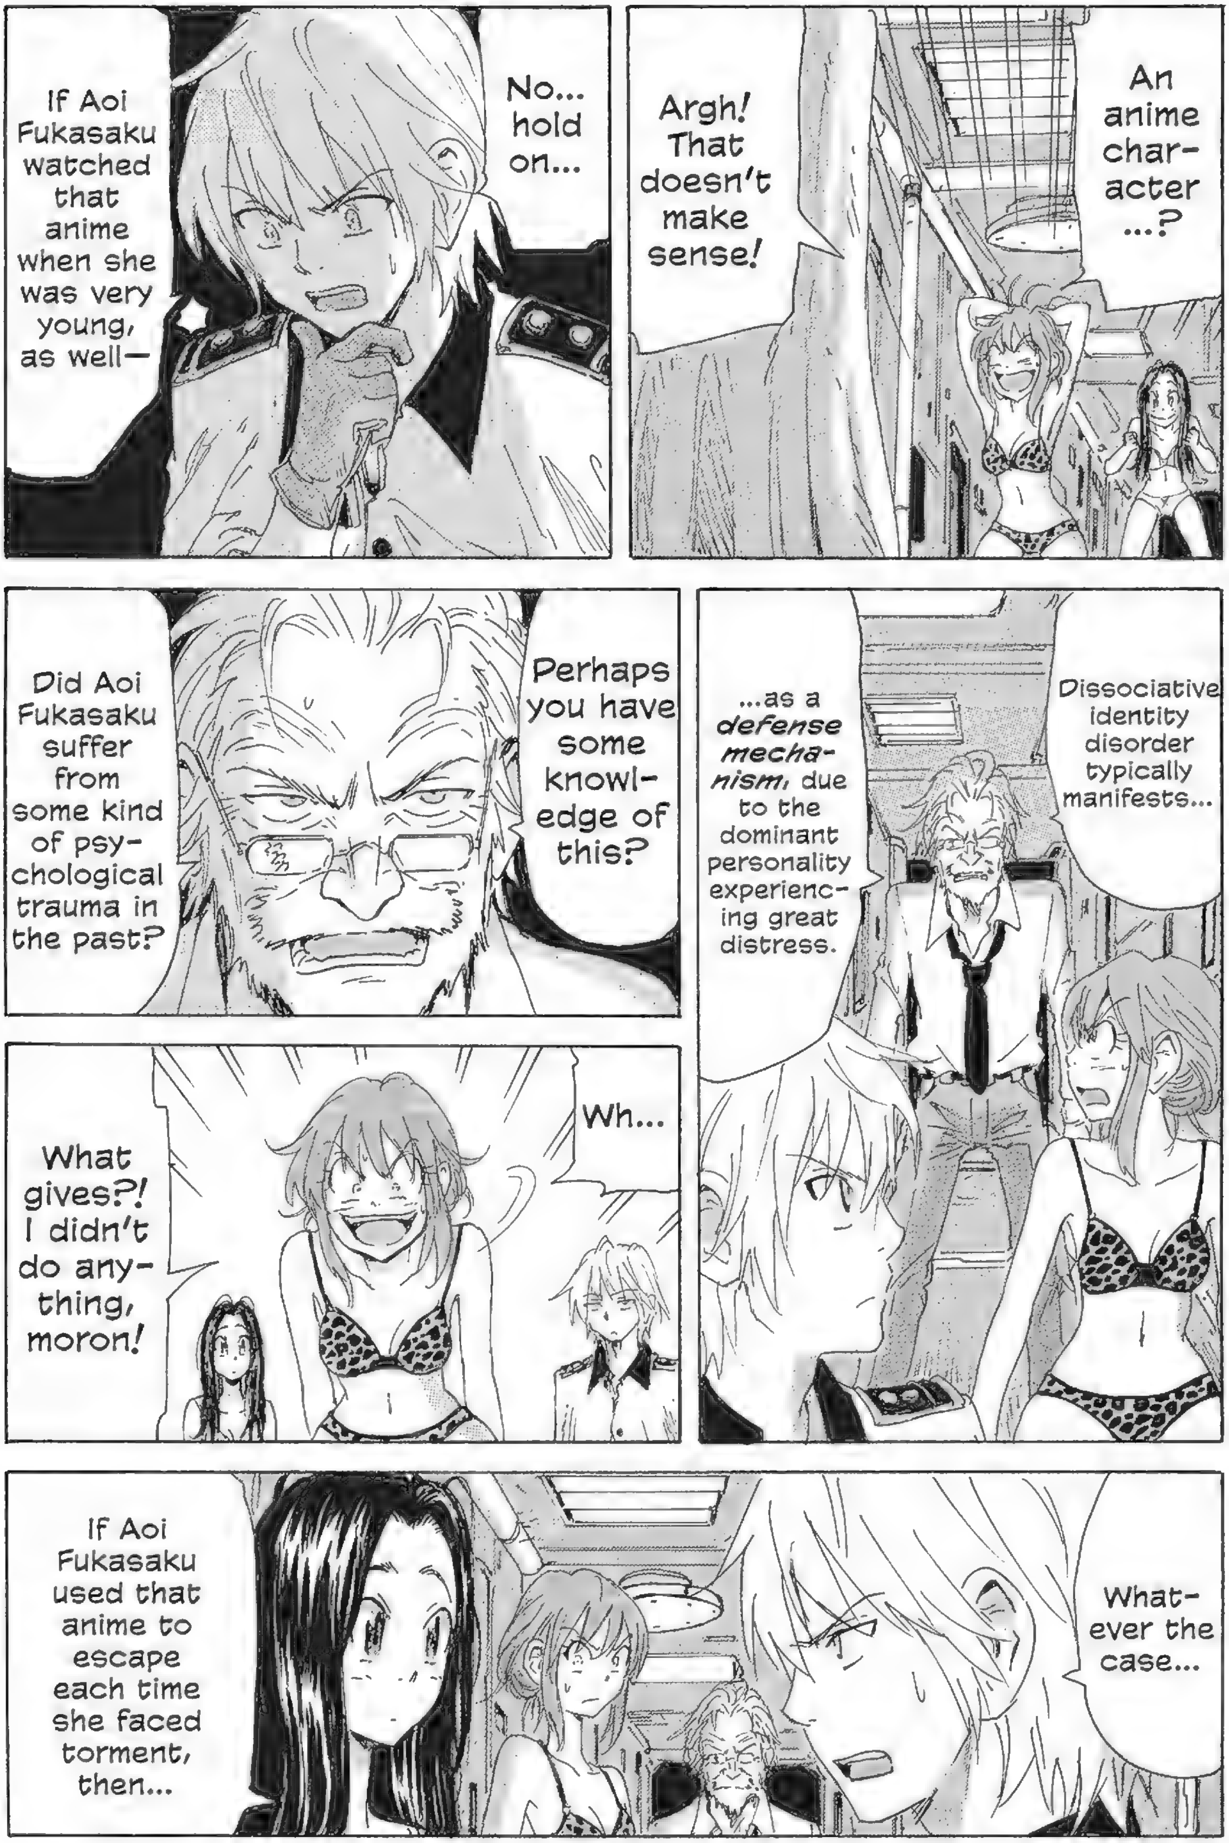
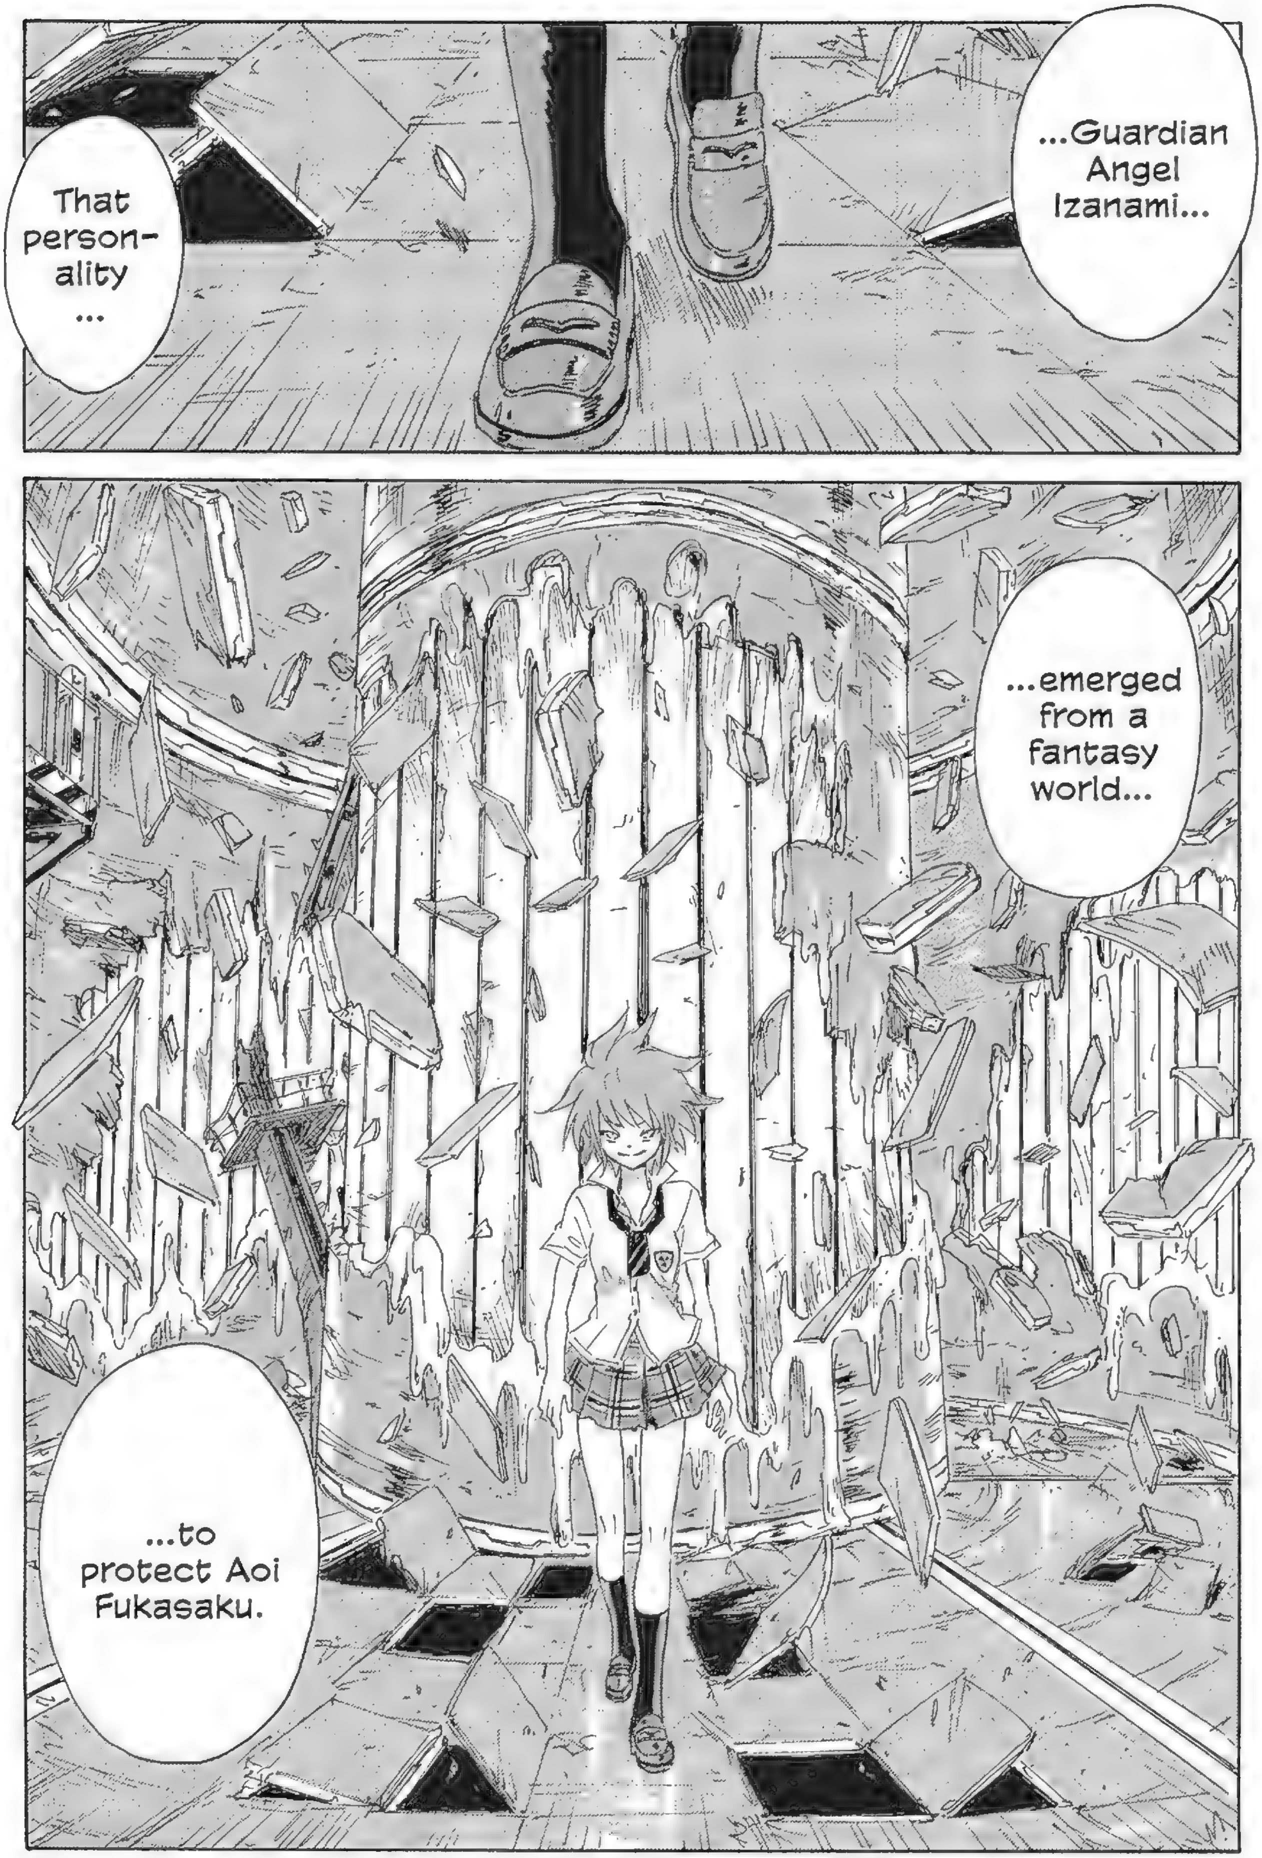
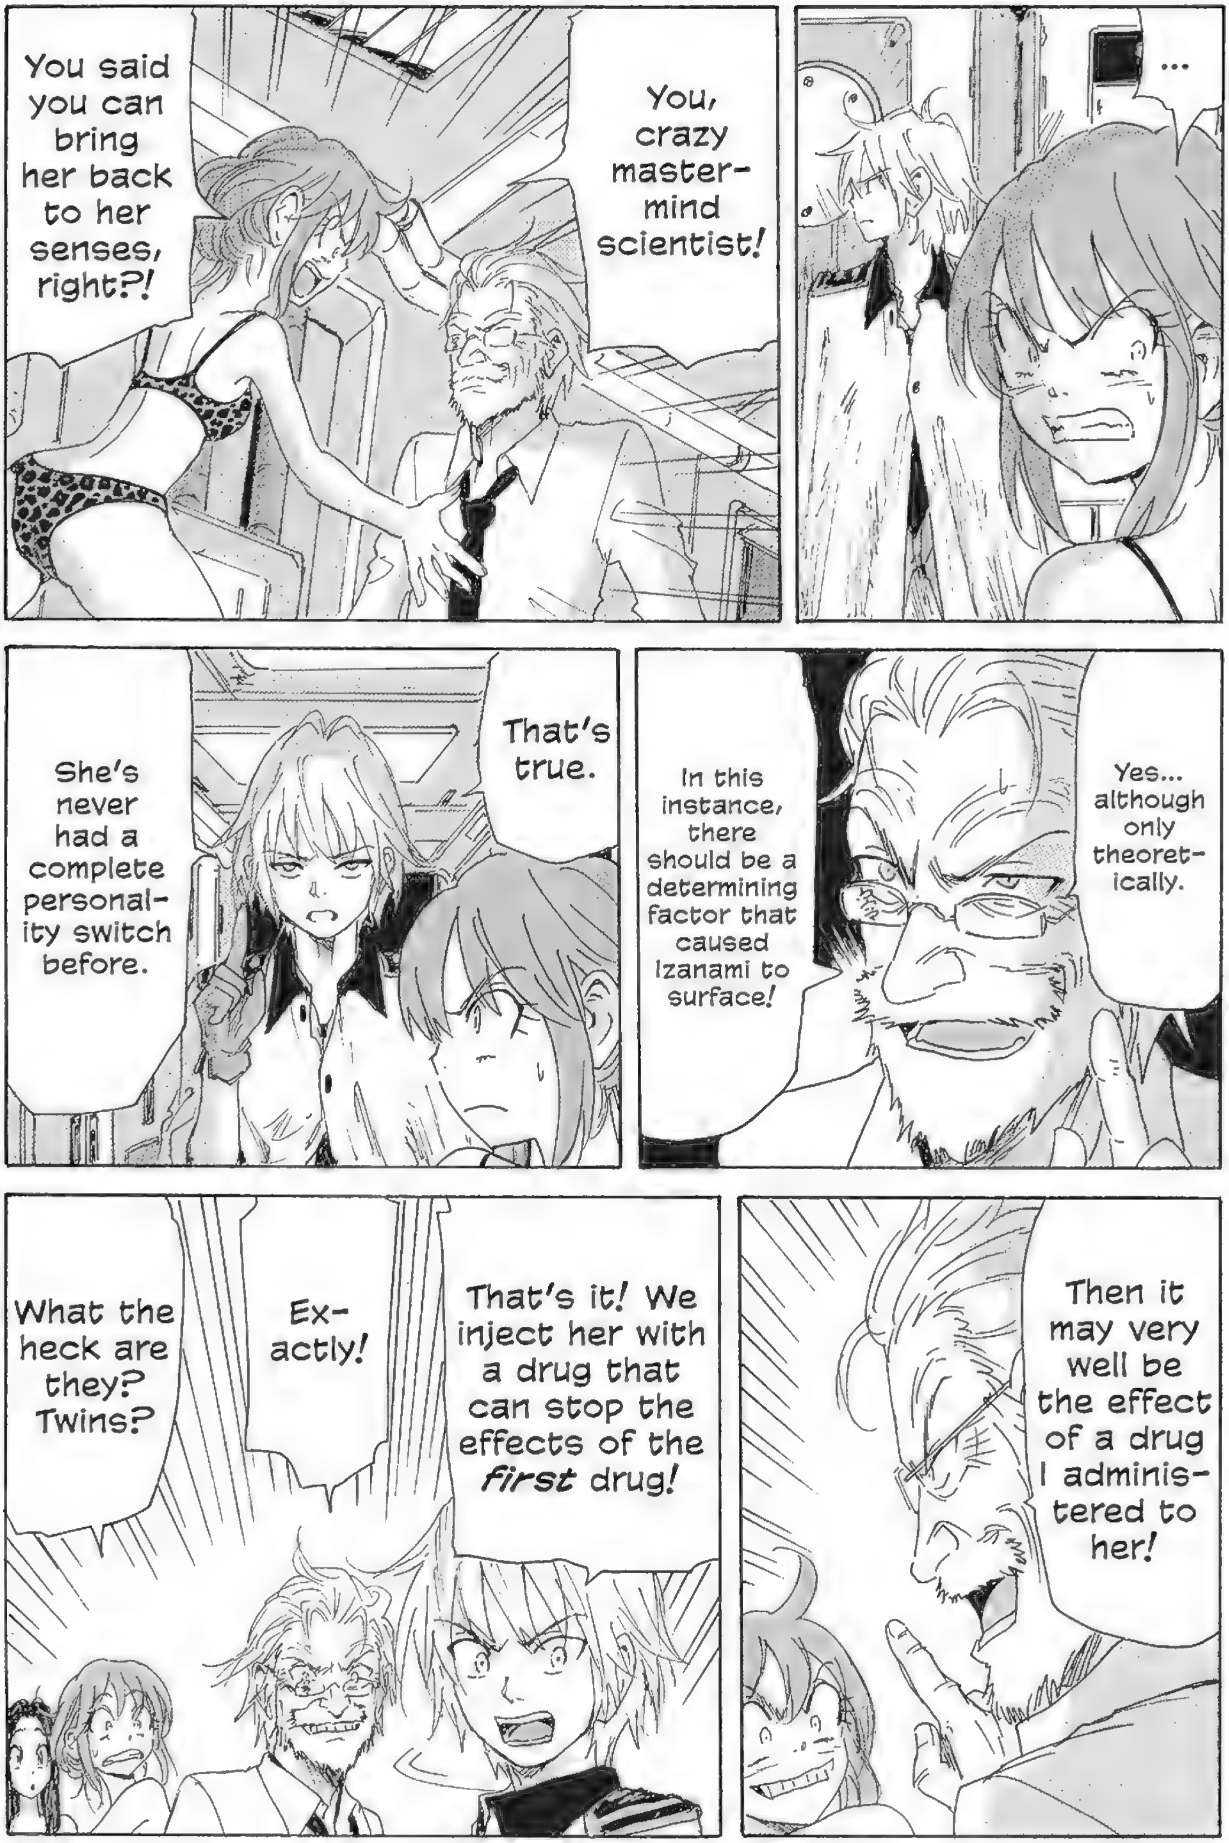
ANGEL IZANAMI



An anime character...?
Argh! That doesn't make sense!
No... hold on...
If Aoi Fukasaku watched that anime when she was very young, as well—
Dissociative identity disorder typically manifests...
...as a *defense mechanism,* due to the dominant personality experiencing great distress.
Perhaps you have some knowledge of this?
Did Aoi Fukasaku suffer from some kind of psychological trauma in the past?
Wh...
What gives?! I didn't do anything, moron!
Whatever the case...
If Aoi Fukasaku used that anime to escape each time she faced torment, then...



...Guardian Angel Izanami...
That personality...
...emerged from a fantasy world...
...to protect Aoi Fukasaku.



...
You, crazy mastermind scientist!
You said you can bring her back to her senses, right?!
Yes... although only theoretically.
In this instance, there should be a determining factor that caused Izanami to surface!
That's true.
She's never had a complete personality switch before.
Then it may very well be the effect of a drug I administered to her!
That's it! We inject her with a drug that can stop the effects of the *first* drug!

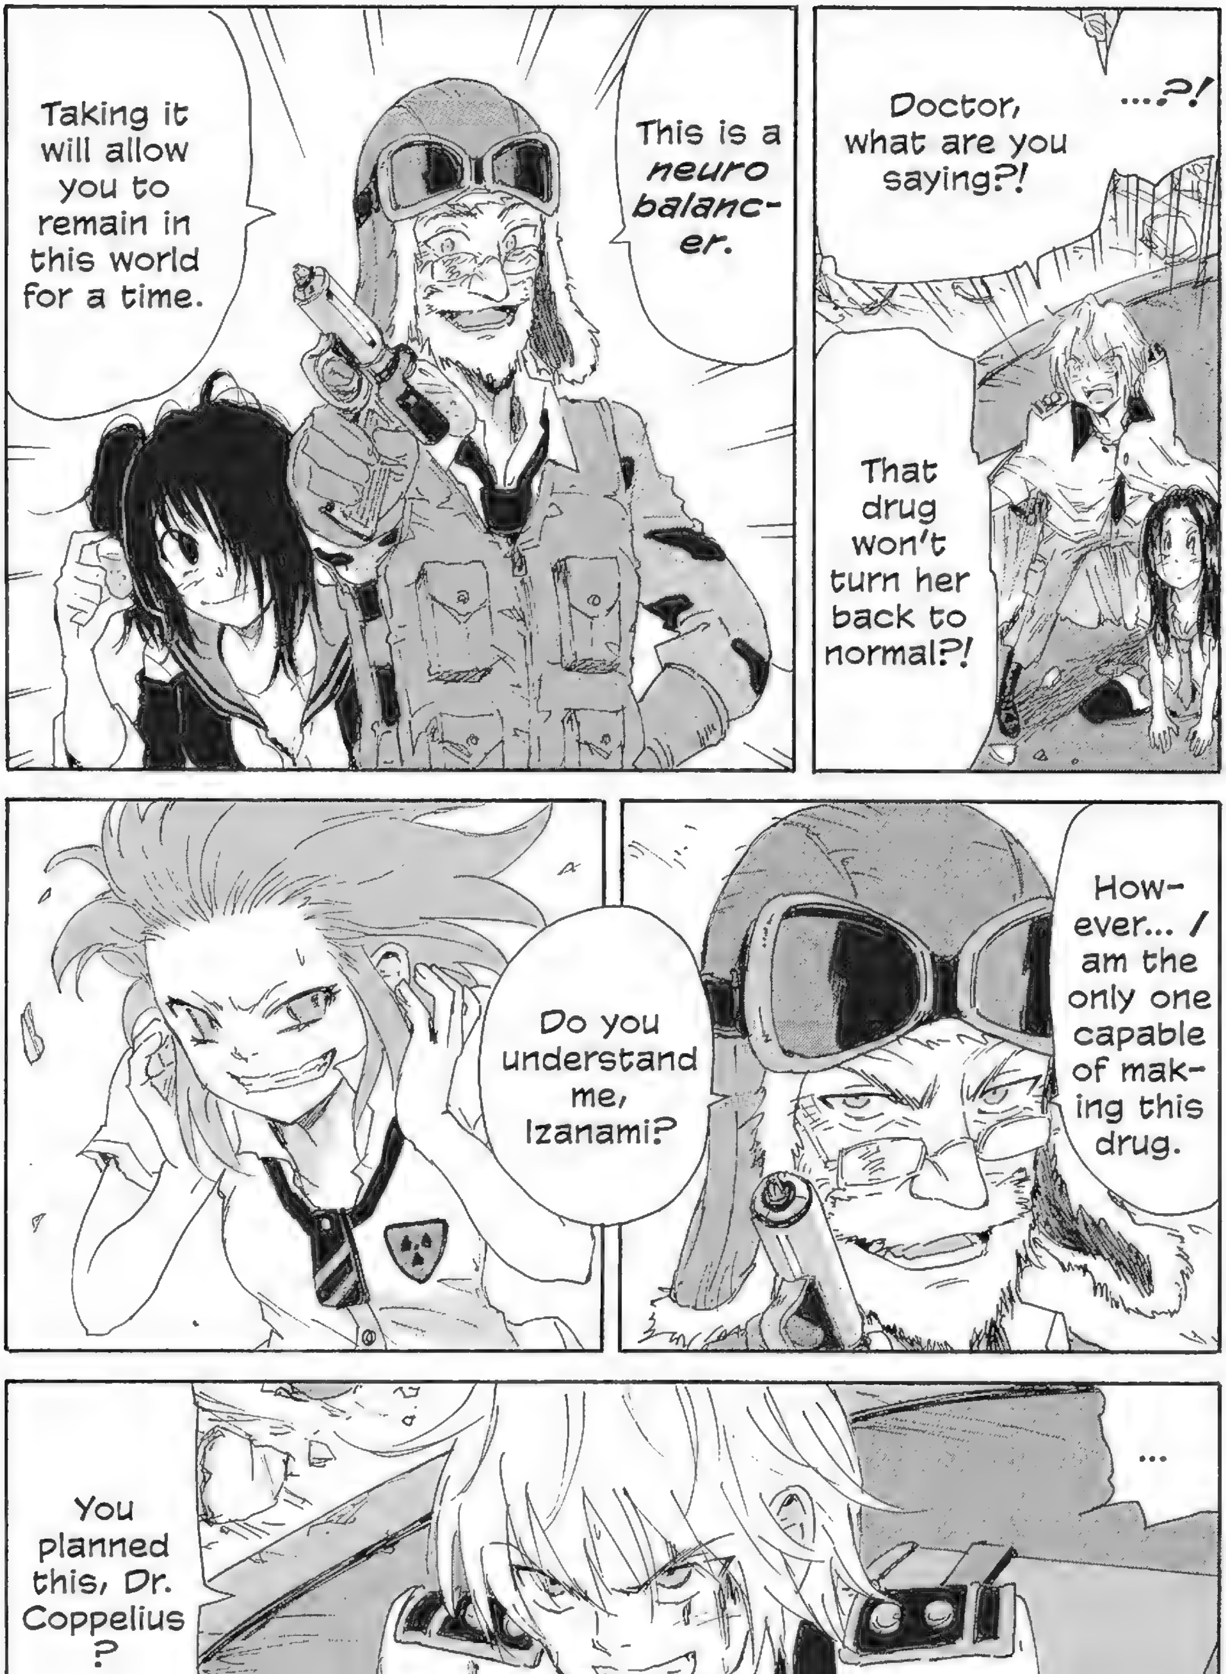
You emerged because of a drug I gave her.
But the drug is starting to wear off.
What do you think will happen when it wears off completely?
That's right... the "Aoi Fukasaku" personality will take over once again.



This is a *neuro balancer.*
Taking it will allow you to remain in this world for a time.

Doctor, what are you saying?!
That drug won't turn her back to normal?!
However... *I* am the only one capable of making this drug.
Do you understand me, Izanami?
